MILLENNIUM LABORATORIES <http://www.becausepainmatters.com/>

Millennium Laboratories is a San Diego-based company focused exclusively on therapeutic drug monitoring, ensuring the optimal management of chronic pain patients. With a fully licensed and accredited laboratory, Millennium serves all fifty states using high-resolution Liquid Chromatography/Mass Spectrometry (LC-MS/MS) to determine precise levels of drugs

in a patient's urine.

Millennium's turnkey medication monitoring services provide qualitative urine testing at the point of care; quantitative laboratory confirmations; and 12 hour/day toxicology assistance with clinical decisions. Millennium delivers the fastest turn-around time in the industry, with FULL results in about one business day.

AMERITOX <http://www.ameritox.com/>

To develop the most effective treatment plans, you need to know that your patients are using their pain medications as prescribed. As a pioneer in pain medication monitoring solutions, SM Ameritox urine drug monitoring goes beyond

standard urine drug testing to provide a more complete picture of your patients' pain medication use. Our superior laboratory services and proprietary methods of analysis are backed by unsurpassed service and comprehensive support. Every day, we're delivering the information and insight you need to achieve the best possible outcomes for your chronic pain patients and your practice.

Automated HealthCare Solutions ("AHCS") <http://www.ahcs.com/>

Automated HealthCare Solutions ("AHCS") is a leading provider of technology-enabled dispensing solutions for physicians serving workers' compensation & personal injury protection ("PIP") patients. AHCS has developed a powerful technology platform for medication dispensing management, called

ezDispense™. The platform enables AHCS to remove many of the traditional barriers associated with physician dispensing, which increases patient convenience and compliance. AHCS is able to assume the collection risk on medication claims and guarantee reimbursement to its physicians. This creates a stable and substantial ancillary revenue opportunity for its physician partners. AHCS also offers point of care drug testing as well as mail order solutions including topical compounds.
